

A VISCERAL APPROACH TO THE ARTERIES OF THE ABDOMEN & PELVIS

Dec. 7-9, 2018 • UNTHSC Texas College of Osteopathic Medicine in Fort Worth

The arterial system is regulated by the autonomic nervous system. The arteries can show a lack of distensibility/mobility when there is a retained tension in the vessel walls. In this class, participants will evaluate the mobility of the abdominal organs, then palpate and evaluate the arteries that supply those organs. When the organ is moved in such a way that the arterial pulsation to the organ is improved, it is held for 20 seconds, resulting in improved visceral function.

Participants will palpate, evaluate and treat the following structures: abdominal aorta, spleen and splenic artery, stomach, left and right gastric arteries, gastro mental artery, liver, gall bladder and common and proper hepatic arteries, pancreas, duodenum and pancreoduodenal artery, small intestine, superior mesenteric artery, large intestine, colic arteries, kidneys, renal arteries, inferior mesenteric, aortic bifurcations, common iliac arteries, internal iliac arteries, external iliac arteries, uterine artery, and internal pudendal artery.

This is an intermediate level course.

Course Times

Friday and Saturday, 8 a.m. to 5:30 p.m.
Sunday, 8 a.m. to 4 p.m.

Continuing Medical Education

22 credits of NMM-specific AOA Category 1-A CME anticipated.

Course Director

A 1994 graduate of what is now the A.T. Still University–Kirksville College of Osteopathic Medicine, **Kenneth J. Lossing, DO**, served an internship and combined residency in neuromusculoskeletal medicine and family practice through the Ohio University Heritage College of Osteopathic Medicine in Athens. He is board certified in both neuromusculoskeletal medicine and family medicine.

Dr. Lossing studied visceral manipulation with Jean-Pierre Barral, DO (France). An internationally recognized lecturer, Dr. Lossing contributed to the second and third editions of the American Osteopathic Association's *Foundations of Osteopathic Medicine* textbook as well as the upcoming fourth edition.

As the AAO's 2014-15 president, Dr. Lossing was featured in a segment of "American Health Front!" that focused on osteopathic manipulative medicine.

Dr. Lossing and his wife, Margret Klein, OA, run a private practice in San Rafael, California.
