I had always found that in every case of Disease there was an Abnormality in the Bony structure.
And as “os” means bone,
I adopted the name Osteopathy.
To know All of a Bone in it's Entirety would close both ends of an Eternity.

When matter is reduced to its greatest degree of atomic fineness, then it can submit to any bodily form...
because this fineness is equal to that of Spiritual Food or the Motor Powers of Life
When matter ceases to be divisible, it then becomes a Fluid of Life and easily unites with other atoms...
